

SOUTH WONSTON PARISH COUNCIL

RISK MANAGEMENT SCHEDULE

Definition of Risk Management

Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and to successfully execute its strategies. Risk management is the process by which risks are identified, evaluated and controlled. It is a key element of the framework of governance together with community focus, structures and processes, standards of conduct and service delivery arrangements.

Purpose of Document

This document has been produced to enable the Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. The Council is aware that although some risks can never be eliminated fully, it is developing a strategy that provides a structured, systematic and focuses approach to managing risk, which:

- Identifies the key risks facing the council
- Identifies what the risk may be
- Identifies the level of risk
- Evaluates the management and control of the risk and records findings
- Reviews, assesses and revises procedures if required.

Responsibility

South Wonston Parish Council is committed to identifying and managing risks using procedures and ensuring that risks are maintained at an acceptable level. Any action that is felt necessary to undertake to reduce risks will be done so by South Wonston Parish Council.

The Clerk, Responsible Finance Officer (RFO) and nominated Councillors will review risks on a regular basis, including any newly identified risks, and report regularly to the Parish Council. The review will include identification of any unacceptable levels of risk.

Members are ultimately responsible for risk management because risk threatens the achievements of policy objectives.

Members should therefore:

- a) take steps to identify key risks facing the Council;
- b) evaluate the potential consequences to the Council if an event identified as a risk takes place;
- c) decide upon appropriate measures to avoid, reduce or control the risk or its consequences.

MANAGEMENT				
Subject	Risk(s) Identified	H/M/L	Management/Control of Risk	Review/Assess/Revise
Business Continuity	Council not being able to continue its business due to an unexpected or tragic circumstance	L/M	All computer files are backed up on a regular basis onto an external hard drive.
